Lesson Plans

Our school has purchased a website subscription for WISCareers, a dynamic and fun career development resource designed for our students. Here’s your opportunity to find great classroom activities within your subject area with little more than a click of your mouse. Use WISCareers to engage our students’ imaginations as they explore who they want to be in the world, what they want to accomplish, and how they’d like to contribute within the world of work.

**550+ Classroom Activities with Lesson Plans and Worksheets**

- Rich, hands-on learning experiences that bring the concept of work to life
- Activities organized by grade, subject, curriculum and Wisconsin Learning Standards allowing you to bring career development into your classroom in way that applies directly to your subject
- An easy way try a new technique and see how your students learn about themselves and the concept of work
- New lessons added regularly
- Access to your own on-line briefcase that keeps your information organized
- Access to the site from any Internet-ready computer

To further enhance your career curriculum, explore the areas of the WISCareers website listed below to inspire and assist you in creating your own lesson plans.

**Occupations**

- 1,000+ occupations that students can explore and research
- Proven methods of assessment to guide students as they examine who they are and what occupations are right for them
- Great resource for job shadowing, informational interviewing, and exploration of over 1000 careers with links to Wisconsin Employers

**Colleges and Vocational Training**

- A national database of over 4,000 colleges and vocational training programs, with links to school home pages, campus maps, on-line applications
- Financial Aid resources to assist the students and parents

**Job Seeking and Resume Builder**

- Smart strategies for resume preparation, including an assessment, samples and tips
- Information on interviewing, applications, and cover letters

**Budget Program**

- A dynamic Budgeting program that enhances understanding of personal finance and how it relates to choices about education and work

To access this great resource, see the attached Login Instructions for you and your students.
